Brick Testimonials

Brick Technology Limited Mind your own Business!

Wednesday 25th May 2011

Dear Brick Technology,

We began working in partnership with Brick some seven years ago, after locating their website on the internet. Following our first meeting with Colin, we knew that Brick's company ethos was such, that it would enable us to work together, in developing our new corporate website.

We also incorporated a whole new e-commerce section, which was new territory for Pennine, but this process was made a simple one, mainly due to the professionalism, knowledge and understanding of the team at Brick Technology.

We have attended several of the free training courses at Brick's premises and we have found these extremely helpful. Additionally, we would like to confirm that the support which is offered by Brick is second to none and their response times are excellent.

If you are considering looking for a new Web design team, then look no further than Brick Technology....You will not be disappointed!!
